

Dam: Muddy Paws Alberta (Luna)

Sire: Brush Dale's Open Season (Jager)

Muddy Paws E Litter
Puppies born 10/30/2021
5 males & 4 females

Females

Males

This pairing between Luna and Jager turned out wonderful! It was a very nice mixed litter between brown & white colored dogs and roan and dark roan. This was Muddy Paws most unique colored litter we have ever had. All puppies except one was born with some blaze (white on head). They were so beautiful! One puppy was born with a white butt. Usually there is some brown markings around the bum, so that was really cool. This was Luna's first litter, and she was an amazing mother throughout the whole time they were here. All puppies went home the week after Christmas, and all transitioned well. They had very little accidents in the house, they were sleeping long hours at night, and some already were working with bird wings and showing real drive! Wonderful pairing.
